Arrived, Chas. Thompson, age 40 Chestnut color, active, well informed &c. Bad treatment had driven Chas. to the necessity of making his escape. Adding to the natural promptings of his heart for liberty, he had secretly been much stimulated by the reading of Uncle Tom's Cabin. In looking over the pages of contents, alone, he was finally aroused. Consequently he let himself to work to contrive a plan whereby he might escape. The thought struck him that if he could get a route as a paper carrier- he could succeed- he got his route & did succeed. He left a wife Mary Ann and two children, Emilia Ann & Louisa, all from and live in Richmond. Chas. was owned by the widow Thornton, who hired him out for \$150 a year- at the end of each year. 50 cts was all the cash Ch. send as his portions.
