In addition, they will also see primary sources by Richard Allen, as well as view poetry on the epidemic by Philip Freneau. (Grades 3<sup>rd</sup> – 8<sup>th</sup>)
5. **Philadelphia in National History:** This program is set to the teacher's discretion. This is meant for high school students to analyze sources and look at history over time. (Grades 9<sup>th</sup> – 12<sup>th</sup>)
6. **20<sup>th</sup> Century:** This program uses propaganda, scrapbooks, and personal letters/diaries to show students what life was like during WWI, WWII, and Vietnam. **Outreach Details:** These programs are designed to either act as a prequel to a field trip or to supplement a lesson on a particular topic. While these programs are free, any school outside of the greater Philadelphia region is expected to pay for additional travel expenses.

When: Tuesday - Friday  
Time: 1-2 hours

Sample Programs:\*

1. **Political Cartoons:** Looking for a way for students to really engage with a primary source? Political cartoons offer a wide variety of historical topics and an easy way to teach point of view for any grade level. Topics include WWI, the Progressive Era, and the Civil War. They can be mixed and matched based on teacher needs. (Grades 4<sup>th</sup>-12<sup>th</sup>)
2. **William Penn/Philadelphia Then and Now:** Understanding how things change overtime is an important concept for students to grasp. This outreach program uses historic maps, beginning with the original map of 1683, to show how Philadelphia has grown and changed over time, including a hands-on activity in which students can map the city themselves. (Grades 1<sup>st</sup>-8<sup>th</sup>)
3. **What is an Archive?:** This program was created to teach students how to use/access an archive. It will help students see how we are different from a regular library and introduce them to some of our sources. This is usually used as a prequel to a field trip. (All Grade Levels)
4. **NHD Overview:** If you wish to implement National History Day into your classroom, we can visit to help your students get started on a topic. We offer a variety of topic ideas and help students in the process of how to research using primary sources. Students are also welcome to visit us for free, on their own, after-school for one-on-one mentoring. (Grades 6<sup>th</sup> - 12<sup>th</sup>)
5. **Childhood in the 19<sup>th</sup> Century:** This program allows students to read the detailed orphan case files of children living in Philadelphia in the late 19<sup>th</sup> Century. These case files offer insight into the lives of foster children and the complications they often faced in finding a space place to live. (Grades 6<sup>th</sup> -12<sup>th</sup>)
6. **Abolition:** Focusing on William Still, this program allows students to create a timeline of events dealing with abolition in Philadelphia. Students will also have the opportunity to read interviews from William Still's Journal. (Grades 4<sup>th</sup> - 12<sup>th</sup>)

\*These are just a few examples of popular topics we are offering this school year. With 21 million documents in our archives, we are able to create programs from almost any time period of US History. Please contact [kmccleary@hsp.org](mailto:kmccleary@hsp.org) with any questions/topics ideas, and we will work to create a program that fits your particular needs.
