

## Milestones

We have gone from this.....to This!

I never thought I would be able to say this, but today, we are done with processing! Every document has a home in a neatly-labeled folder--all the horror of the unexpected 50 linear feet of material in the stacks has abated, and now we get down to the nitty-gritty work of polishing our finding aid, numbering all the folders, making labels, marking up the finding aid, creating catalog records, writing our reports to NEH, and cleaning up data. Of course, there is still much to be done, but today feels like a very good day.

Leah and Jessica rolled up the last of the oversize maps today, and now there are a few lingering oversize folders to deal with, but all of this feels so much more manageable. I am buoyed by these accomplishments, and feel readier than ever to face the last month and a half of the project with energy and a clear head.

Just wanted to share this day with you all!  
(Even the water leaking from the ceiling can't upset me today!)
