

Research Strategy Interviews (Patron level Friends and above)

Do any of these describe your research project?

- At a “dead end” on your family tree
- Limited time in the Philadelphia area
- New or unfamiliar topic
- Too many collections, too little time
- Tight deadline to meet
- Working on a book, article or dissertation

Our Patron (\$130) level members and above may schedule a one-on-one research strategy interview with a member of our knowledgeable library staff. This will be an in-depth reference interview and will be more personal and focused than a general orientation. Make the best use of your time, schedule an appointment today!
