**Part 1: Analyzing Images**

**Directions:** Using each primary source image below, analyze the image and answer the following questions.

**Question 1:** Describe each image. Is this positive or negative portrayal of injury and disability caused by war?

<table>
<thead>
<tr>
<th>Image Description</th>
<th>Image Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>Liberty Loan Poster</td>
<td>“Wounded WWI Soldiers Return Home”</td>
</tr>
</tbody>
</table>

**Question 2:** What would you say is the overall American attitude towards World War I according to each image?
Question 3: Why do you think the images display the attitudes that they do? Do you think these attitudes are commonly held by everyone nationally?
Part 2: Comparing and Contrasting Images to Text

**Directions:** Now that you have analyzed the images, read the excerpts on the DAV source sheet. Answer the following questions that will ask you to analyze the text as well as compare and contrast the content of the text to that of the images.

Question 1: How are injured and disabled soldiers portrayed in the text?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

Question 2: How does the portrayal of injured and disabled soldiers in the text differ from the way they were treated upon their return, according to the text?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________
Question 3: Why does the portrayal of veterans and veterans’ treatment differ?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Question 4: Compare and contrast the DAV source sheet to the primary source images. How are they different? Why do you think that is?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
Part 3: Convalescence and Aid

Question 1: What services became available to returning injured and disabled veterans?

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

Question 2: How did women help disabled veterans?

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

Question 3: Why was the government unable to help fund the Philadelphia School of Occupational Therapy?

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________
Question 4: Using the definition of the term “occupational therapy,” why is occupational therapy a treatment and service offered to disabled veterans?

Question 5: What kind of services and treatment do you think should be available to disabled veterans? What kinds of services exist now to help disabled veterans?
